France Avenue Pedestrian Improvement Project

Dear Stakeholder:

Stage I: Hazelton Road to 69th Street – Phase I

On Friday, April 18 and Monday, April 21, construction crews will work on boring electrical conduits under France Avenue at 70th Street. To complete this work, northbound France Avenue traffic between Hazelton Road and 69th Street will be temporarily reduced to one lane. The temporary lane reduction will occur during the morning on both of these days, lasting a few hours each workday. Two northbound lanes will be returned to operation as soon as possible each day. The two southbound lanes on France Avenue are not expected to be affected. In addition, removal operations and utility crews will continue to work in the construction zone between Hazelton Road and 69th Street. No work will occur over the weekend.

Traffic Control

Traffic control will be in place. The portable message board will be changed to assist directing traffic through the construction zone.

Project Construction Hotline

Call the France Avenue construction hotline at 952-826-0394 for project updates or leave a message for the crews. The hotline is checked daily.

Safety

Safety is our No. 1 concern. Please use caution when traveling the area on foot or by car. Children are fascinated with construction operations, so please keep an eye on them. Expect delays and travel safely through the construction zone.

Who to Contact in an Emergency

9-1-1 for life or property-threatening emergencies.

For additional information about this project, visit www.EdinaMN.gov/FranceAvenue.

Sincerely,

George Bender, PE
Construction Inspector
WSB & Associates, Inc.
